Complete Toolkit

Loose-Leaf Publishing

The New Generation XML Publishing System

RSuite Publish is an XML publishing system that utilizes powerful rendering development to publish complex, highly-styled documents. It can be integrated with DITA and XML editing tools using free plug-ins for XMetal and oXygen. Whether you have a single author, or a team of authors, RSuite Publish can get your data where it's needed in a form that maximizes its value.
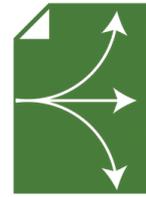

With RSuite Publish composition is fully automatic and can be intergrated seamlessly into an existing CMS. It provides a simple point and click interface for stylesheet development, eliminating the need for complex XSLT/FO stylesheets.

Innovative Features

- Design and customize content with stylesheet design tools.

- Auto-generate indexes, tables of contents, PDF bookmarks, cross-referencing and hyperlinks.

- Create outputs from any DITA document instantly with out-of-the-box stylesheets.

- Integrate with XML and DITA editing tools using plugins for XMetal and oXygen.

- Enable loose-leaf publishing with versioning and differencing, release packs, filing instructions, and list of effective pages.

- Experience a point and click interface with stylesheeting; a graphical page layout editor, and automatic stylesheet generation for new document types.

- Utilize CALS and HTML tables, automatic footnotes, side notes, and floats.

- Future-proof content automatically.

- Store stylesheets and use them to generate output documents on demand.

- Experience hyphenation for 30 European languages and more.

Benefits of Using Orbis Products & Solutions

RSuite Publish excels when XML content must be delivered in several formats and/or at frequent intervals. With RSuite Publish you can define the styling requirements for multiple output formats with a single stylesheet in a fraction of the time required by traditional methods

The RSuite Publish dashboard allows multiple authors to access a shared repository. Authors can edit their data and see a preview of the published version through the same intuitive interface. The repository also stores the style information for each publication.

Orbis software has a global user community who work with our product developers to improve our products. Our user base plays a critical role in shaping the way we upgrade and maintain our products. All Orbis clients have access to a 24/7 help desk and with product documentation and support.
